THE CALIBRE DIFFERENCE

STANDARD FEATURES

- ENGINEERED STRUCTURED BOOMS
- RECIRCULATING BOOM SYSTEM
- STAINLESS STEEL WET BOOMS
- HIGH WATER RATE CAPACITY
- ELECTRIC HYDRAULIC CONTROL
- SOFT BOOM FOLD
- AIR SWITCHING
- ISOBUS JOYSTICK OPERATION
- A-FRAME SUSPENSION
- YAW CONTROL
- INDEPENDANT BOOM TILT
- SPRAY AT REDUCED WIDTH
- 600-800L FLUSH TANK
- MSP400 CENTRIFUGAL PUMP
- ARAG IBX 100 RATE CONTROLLER
- 3 METRE ALUMINIUM BREAK AWAY
- CENTRE ROLL SUSPENSION
- SIMPLE PLUMBING OPERATION
- LARGE 100MM PRESSURE GAUGES
- GREASABLE PIVOT POINTS
- A-FRAME TOOL BOX
- TANK SPRINKLERS
- TANK AGITATORS
- NOZZLES PROTECTED INSIDE BOOM
- FENCE LINE NOZZLES
- AIR BAG SUSPENSION
- 3 STAGE FILTRATION
- HIGH QUALITY SPRAY HOSE
- SANDBLASTED & SEALED
- 2 PACK PRIMER & TOP COAT
- ALL STAINLESS STEEL FASTENERS
- ALL VITON SEALS
- OVERSIZE SIGN
- FLASHING BEACON
- SEALED CONTROL BOX
- FOLD AWAY STEPS

THE LOCAL SERVICE DIFFERENCE

2 YEARS STRUCTURAL WARRANTY

OPTIONAL UPGRADES

- NORAC AUTO HEIGHT CONTROL - 5 SENSORS
- 3 TIER SPRAY SYSTEM
- 2" HYDRAULIC FILL PUMP
- 3" HYDRAULIC FILL PUMP
- 12V CHEMICAL PUMP
- 100 LITRE CHEMICAL HOPPER
- FLUSH ON THE GO
- TANK LEVEL SENSOR
- MAIN TANK AUTO SHUT OFF
- MICROMATIC COUPLING AND HOSE
- BOOM LIGHTS - BLUE
- WORK AREA LIGHTS
- LED TAIL LIGHTS

HEIGHT CONTROL

12V CHEMICAL PUMP

HYDRAULIC FILL CONTROL

TANK LEVEL SENSOR

WORLD CLASS, MADE LOCAL.

CALIBRE SPRAYING IS A PROUD AUSTRALIAN MANUFACTURING BUSINESS THAT VALUE PRODUCING A WORLD CLASS PRODUCT WITH CUTTING EDGE TECHNOLOGY AND EXCEPTIONAL LOCAL SERVICE.

The key to the success of Calibre Spraying lies in the rigorous engineering, research and development that underpin our product. Since the company's inception in 2020, our primary focus has been to manufacture a cutting-edge boomspray that not only competes on a global scale but is also proudly manufactured in the West Australian Wheatbelt. In an era where technology within the agricultural industry is advancing by leaps and bounds, Calibre Spraying stands at the forefront of embracing groundbreaking technology to elevate both the operator's experience and overall performance.

The compact chassis design, combined with our distinctive centre frame, forms the ultimate foundation for the engineered structured boom, allowing it to surpass its competitors in performance. Self-leveling roll and yaw dampening play a pivotal role in enhancing the overall longevity and efficiency of the boom. These pivotal features integrated into our design not only deliver an exceptional operator experience but also demonstrate resilience against the harsh Australian conditions. With a straightforward decontamination process and a user-friendly plumbing layout, this machine ensures remarkable usability and efficiency.
