ARTILE 05

# ***CALIBRE SPRAYING JOINS THE BOSS ENGINEERING GROUP***

**We're proud to announce a major milestone in the Calibre Spraying journey:**

**As of April 2025, Calibre Spraying is now part of the BOSS Engineering family.**

This exciting development brings together two proudly Australian businesses with a shared

commitment to innovation, quality, and supporting growers across the country. The partnership strengthens both Calibre and BOSS Engineering's national footprint—enabling greater geographic reach, improved access to cutting-edge technology, and enhanced product offerings for farmers and contractors throughout Australia.

**With BOSS Engineering based in Inverell, NSW and Calibre Spraying in Brookton, WA, this collaboration creates a powerful east-west alignment, allowing each company's core products and services to reach new regions.**

The move is a strategic step forward for both businesses, unlocking expanded production capacity, greater manufacturing efficiencies, and increased investment into R&D across both conventional and autonomous spray technology.

Calibre Spraying will continue to operate under its existing name and structure, with Daniel Watkins remaining as General Manager. From a customer perspective, it's business as usual—our commitment to delivering high-quality, custom-built boom spray solutions and support for Australian farmers remains unchanged.

**“Calibre has grown from the ground up with a focus on the needs of Aussie growers, and that’s something BOSS Engineering shares deeply,” said Daniel Watkins. “We’re excited about what this next chapter brings—not only for our team, but for the future of precision spraying in Australia.”**

## **About BOSS Engineering**

Founded in 2007 in Inverell, Northern NSW, BOSS Engineering is a diversified manufacturer specialising in agricultural machinery and automotive aftermarket equipment. With a strong reputation for durability, innovation, and customer service, BOSS services clients nationwide through its BOSS Agriculture and BOSS Built brands.
